FISH HEALTH INSPECTORATE VISIT REPORT

SUMMARY FOR INFORMATION OF SITE OPERATOR

BUSINESS NO FB0440 SITE NO FS0501 INSPECTOR DATE OF VISIT17/02/2020SITE NAMETaing of Railsbrough CatfirthCASE NO20200065

In accordance with The Aquatic Animal Health (Scotland) Regulations 2009, the site was inspected as fallow. Site is not planned to be used again in the long term but unsure if it is to be used at some point this year.

Once decision has been made, please submit a completed amendment form to change the status of the site to inactive. If the site is to be restocked in the future you must notify the Fish Health Inspectorate at least 30 days prior so the status can be amended.

Mortality records were inspected and found to be adequately maintained.

Mortality levels had exceeded the reporting criteria since the last inspection and had not been reported to the Fish Health Inspectorate. I would like to remind you of the industry agreement in relation to mortality reporting as detailed in A Code of Good Practice for Scottish Finfish Aquaculture.

Please contact myself or the duty inspector should you require any further information or have any queries regarding this report.

Signed: Fish Health Inspector

Date: 04/03/2020

The Fish Health Inspectorate Service Charter detailing standards of service is available on the Marine Scotland website at www.gov.scot/Topics/marine/Fish-Shellfish/FHI/charter
