## **Additional Case Information:**

Site fallow since May 2019. There are plans to use the site for thinning out stock from other nearby sites towards the end of 2020/beginng of 2021.

Site manager was unavailable at time of inspection. Information was provided by a neighbouring site manager.

Fish coming onto site will be coming from two neighbouring sites; Maragay Mor (FS1304) and Maaey (FS1315).

Site plans to do live harvests, with fish going to the Stornoway harvest station.

Site is expected to be fitted with new cages before moving fish on. It is expected there will be less than 12 in the new configuration.

## FISH HEALTH INSPECTORATE VISIT REPORT

## SUMMARY FOR INFORMATION OF SITE OPERATOR

Business No FB0169 Site No FS1255 Inspector DATE OF CASE 24/07/2020
SITE NAME North Uiskevagh
CASE No 20200283

Routine surveillance frequency assessment under the Aquatic Animal Health (Scotland) Regulations 2009

The above site was contacted in accordance with the Aquatic Animal Health (Scotland) Regulations 2009, and to meet the requirements of European Community Council Directive 2006/88/EC.

The information required for the public record of aquaculture production businesses regarding this site was verified and where necessary updated.

The surveillance frequency category of the site was assessed as medium. An inspection under the Aquatic Animal Health (Scotland) Regulations 2009 will be conducted every second year. The category of the site will be reassessed on a routine basis and updated as required.

No mortality levels exceeding the reporting criteria have been recorded since the last inspection.

Please contact myself or the duty inspector should you require any further information or have any queries regarding this report.

Signed: Date: 01/10/2020

Fish Health Inspector
