Additional Case Information:

Remote inspection carried out on 11/09/2020 by via Microsoft Teams

First choice for lice issues is the hydrolicer. The hydrlicer is used all around Shetland and is operted by the company. They may let the use of the hydrolicer to another company if not being used by Cooke.

Predator mitigartion methods: Bird nets, seal-pro sapphire (anti-predator) nets, tensioned nets, contract with pest control company at shorebase

ADD available to use on shore base if required

Some sites in the FMS are not synchronised with the same year class of fish

Site inspection and sampling by

No issues noted or recorded on site, visibility excellent, fish shoaling well and showed a good feeding response. Operator has staff working in smaller teams 1 to 2 sites, due to Coronavirus. This may impact ability to inspect multiple sites on one day, unless operated by the same team.

One of the four sites (Winna Ness, Vee Taing, Burkewell and Uyea Isle) in the area will be fallowed each input, rotating through the sites.

Sites feed supplied by Cooke themselves and is reported to be going well

FISH HEALTH INSPECTORATE VISIT REPORT

SUMMARY FOR INFORMATION OF SITE OPERATOR

BUSINESS NOFB0095SITE NOFS0871INSPECTORSImage: Constraint of the second secon

 DATE OF VISIT
 15/09/2020

 SITE NAME
 Winna Ness

 CASE NO
 20200378

Inspection under the Aquatic Animal Health (Scotland) Regulations 2009

The above site was inspected in accordance with the Aquatic Animal Health (Scotland) Regulations 2009, and to meet the requirements of European Community Council Directive 2006/88/EC.

All epidemiological units were inspected. On this occasion no samples were taken for disease analysis. The Inspector did not observe any clinical signs associated with the listed diseases as described in the Aquatic Animal Health (Scotland) Regulations 2009.

Records

The surveillance frequency category of the site was assessed as low. An inspection under the Aquatic Animal Health (Scotland) Regulations 2009 will be conducted every third year. The category of the site will be reassessed on a routine basis and updated as required.

The information required for the public record of aquaculture production businesses regarding this site was verified and where necessary updated. The following records were also inspected to ensure that the conditions of authorisation for your Aquaculture Production Business (APB) are being met:

Aquaculture animal and aquaculture animal product movement records were inspected and appeared to be adequately maintained.

Mortality records were inspected and found to be adequately maintained.

No mortality levels exceeding the reporting criteria have been recorded since the last inspection.

Reports detailing the results of animal health surveillance carried out by or on behalf of the business and/or Marine Scotland were available for inspection.

The biosecurity measures plan for the site was inspected and found to be adequately maintained and implemented.

Inspection under the Animals and Animal Products (Examination for Residues and Maximum Residue Limits) (England and Scotland) Regulations 2015

Medicine records were inspected and found to be adequately maintained.

Samples were taken to be analysed for veterinary residues.

Inspection under the Aquaculture and Fisheries (Scotland) Act 2007

The site was also inspected in accordance with the Aquaculture and Fisheries (Scotland) Act 2007, as amended, with respect to section 3 regarding parasites (sea lice), section 4A regarding fish farm management agreements and statements and section 5 regarding containment and escapes.

On this occasion the site was found to be satisfactory with regards to parasites, fish farm management agreements and statements and containment and escapes.

Please contact myself or the duty inspector should you require any further information or have any queries regarding this report.

Signed:

Date: 01/12/20

Fish Health Inspector

The Fish Health Inspectorate Service Charter detailing standards of service is available on the Marine Scotland website at https://www.gov.scot/publications/fish-health-inspectorate-service-charter/
