FHI 059, Version 13		Issued by: FHI	Date of issue: 12/05/2020
Case No: 2020-0436			Date of visit: 07/10/2020
Time spent on site: 4	hrs	Main Inspe	ector:
Site No: FS0001 Business No: FB0012	Site Name: Business Name:	Evanachan Salt Water Otter Ferry Seafish Ltd	
Case Types: 1 ECI 2	2 CNI 3 SLI	4 5	6
Water Temp (°C): 12.4	Thermometer No:	T148	FHI 045 completed
Observations:	Region: ST	Water type: S	CoGP MA: M-42
Dead/weak/abnormally behaving Clinical signs of disease observed Gross pathology observed? Diagnostic samples taken?	•	N If yes, see additional in	nformation/clinical score sheet. nformation/clinical score sheet. nformation/clinical score sheet.
UNI/REG only - if unable to carry	out intended visit deta	il reason below:	

## **Additional Case Information:**

No water quality or predator issues on site. Production of juvenile halibut is undertaken for transfer and on-growing on Gigha. Pigmentation issues are ongoing but this does not affect the fish.

Wrasse and lumpfish are on-grown for use as biological sea lice control on salmon production sites. Have periodic issues with atypical furunculosis in wrasse and have AGD present in lumpfish. Environmental enrichment is used in the tanks along with reducing the light levels. Demand remains high for cleanerfish production. Improvements are being undertaken to production facilities.

Site is never fallow but good biosecurity between production units and cleaning and disinfection between production batches.

# FISH HEALTH INSPECTORATE VISIT REPORT

#### SUMMARY FOR INFORMATION OF SITE OPERATOR

BUSINESS NO FB0012 SITE NO FS0001 INSPECTOR **DATE OF VISIT** 07/10/2020 **SITE NAME** Evanachan Salt Water

**CASE No** 20200436

## Inspection under the Aquatic Animal Health (Scotland) Regulations 2009

The above site was inspected, in accordance with the Aquatic Animal Health (Scotland) Regulations 2009, and to meet the requirements of European Community Council Directive 2006/88/EC.

All epidemiological units were inspected. On this occasion no samples were taken for disease analysis. The Inspector did not observe any clinical signs associated with the listed diseases as described in the Aquatic Animal Health (Scotland) Regulations 2009.

#### Records

The surveillance frequency category of the site was assessed as high. An inspection under the Aquatic Animal Health (Scotland) Regulations 2009 will be conducted annually. The category of the site will be reassessed on a routine basis and updated as required.

The information required for the public record of aquaculture production businesses regarding this site was verified and where necessary updated. The following records were also inspected to ensure that the conditions of authorisation for your Aquaculture Production Business (APB) are being met:

Aquaculture animal and aquaculture animal product movement records were inspected and appeared to be adequately maintained.

Records in relation to aquaculture animals transported by the business were inspected and found to be adequately maintained.

Mortality records were inspected and found to be adequately maintained.

Reports detailing the results of animal health surveillance carried out by or on behalf of the business and/or Marine Scotland were available for inspection.

The biosecurity measures plan for the site was inspected and found to be adequately maintained and implemented.

Inspection under the Animals and Animal Products (Examination for Residues and Maximum Residue Limits) (England and Scotland) Regulations 2015

Medicine records were inspected and found to be adequately maintained.

## Inspection under the Aquaculture and Fisheries (Scotland) Act 2007

The site was also inspected in accordance with the Aquaculture and Fisheries (Scotland) Act 2007, as amended, with respect to section 3 regarding parasites (sea lice), section 4A regarding fish farm management agreements and statements and section 5 regarding containment and escapes.

On this occasion the site was found to be satisfactory with regards to parasites, fish farm management agreements and statements and containment and escapes.

Please contact myself or the duty inspector should you require any further information or have any queries regarding this report.

Date: 12/11/2020

Signed:

Fish Health Inspector
