FHI 059, Version 13	ls	ssued by: FHI	Date of issue: 12/05/2020
Case No: 2021-0094			Date of visit: 05/05/2021
Time spent on site:	3h	Main Ins	spector:
Site No: FS1274	Site Name:	Kishorn West	
Business No: FB0125	Business Name:	Scottish Sea Farms Ltd	
Case Types: 1 ECI	2 CNI 3 SLI	4 VMD 5	6
Water Temp (°C): 7.8	Thermometer No:	T173	FHI 045 completed
Observations:	Region: HI	Water type: S	CoGP MA M-19
Dead/weak/abnormally behaving	-		I information/clinical score sheet.
Clinical signs of disease observ	ed?		l information/clinical score sheet.
Gross pathology observed? Diagnostic samples taken?		N If yes, see additiona	I information/clinical score sheet.
Diagnostic samples taken.			
UNI/REG only - if unable to carr	y out intended visit detail	reason below:	

Additional Case Information:

Reported sea lice number Wk 14 0.46 adult female Leps, site records for Wk 14 were 0.41 adult female Leps. Discrepancy due to second count conducted on site.

Some physical damage observed, site staff were actively removing these from the pens. Some runts and lethargic fish observed however these could not be caught for further examination. The general population appeared in good health.

Virtual inspection led by supervised by Mortality and medicine records inspected up to the 30/4/2021 during virtual inspection. Site inspection and sampling carried out on 5/5/2021 by and medicine records inspected up to the 30/4/2021 during virtual inspection.

2019 Weeks 30, 35, 40, 43, 44 Mortalities already reported to Marine Scotland. Week 39 2019 - 1.7% mortality (3,742 fish) Complex Gill Disease. Added to mortality events.

Case completion report

Recommendations in relation to the above case were made for implementation by 14/06/2021. Following submission of the required documentation, evidence has now been provided to Marine Scotland to demonstrate that the recommendations have been implemented.

This case will now be closed. This site may be subject to further audit and recommendations in the future.

Please contact myself or the duty inspector should you require any further information or have any queries regarding this report.

Signed: Date: 01/07/2021

The Fish Health Inspectorate Service Charter detailing standards of service is available on the Marine Scotland website at https://www.gov.scot/publications/fish-health-inspectorate-service-charter/

FISH HEALTH INSPECTORATE VISIT REPORT

SUMMARY FOR INFORMATION OF SITE OPERATOR

BUSINESS NO FB0125
SITE NO FS1274
SITE NAME Kishorn West

Case No 20210094 Inspector

Inspection under the Aquatic Animal Health (Scotland) Regulations 2009

The above site was inspected, in accordance with the Aquatic Animal Health (Scotland) Regulations 2009.

All epidemiological units were inspected. On this occasion no samples were taken for disease analysis. The Inspector did not observe any clinical signs associated with the listed diseases as described in the Aquatic Animal Health (Scotland) Regulations 2009.

Records

The surveillance frequency category of the site was assessed as medium. An inspection under the Aquatic Animal Health (Scotland) Regulations 2009 will be conducted every second year. The category of the site will be reassessed on a routine basis and updated as required.

The information required for the public record of aquaculture production businesses regarding this site was verified and where necessary updated. The following records were also inspected to ensure that the conditions of authorisation for your Aquaculture Production Business (APB) are being met:

Aquaculture animal and aquaculture animal product movement records were inspected and appeared to be adequately maintained.

Mortality records were inspected and found to be adequately maintained.

No mortality levels exceeding the reporting criteria have been recorded since the last inspection.

Reports detailing the results of animal health surveillance carried out by or on behalf of the business and/or Marine Scotland were available for inspection.

The biosecurity measures plan for the site was inspected and found to be adequately maintained and implemented.

Inspection under the Animals and Animal Products (Examination for Residues and Maximum Residue Limits) (England and Scotland) Regulations 2015

Medicine records were inspected and found to be adequately maintained.

Samples were taken to be analysed for veterinary residues.

Inspection under the Aquaculture and Fisheries (Scotland) Act 2007

The site was also inspected in accordance with the Aquaculture and Fisheries (Scotland) Act 2007, as amended, with respect to section 3 regarding parasites (sea lice), section 4A regarding fish farm management agreements and statements and section 5 regarding containment and escapes.

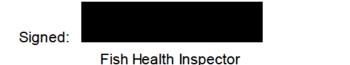

On this occasion the site was found to be satisfactory with regards to parasites and containment and escapes.

The farm management agreement/statement was inspected and found to be **inadequately** maintained. Please see the attached annex detailing the points that must be addressed.

Please ensure that these points have been addressed by 14/06/2021. Records or documentation demonstrating that these points have been addressed should be sent to the Fish Health Inspectorate (contact details below). The site may be subject to further inspection or enforcement action should the appropriate action regarding the above points not be taken within the time period stipulated.

Please contact myself or the duty inspector should you require any assistance or clarification in implementing any requirement or recommendation detailed in this report.

Date: 12/05/2021

The Fish Health Inspectorate Service Charter detailing standards of service is available on the Marine Scotland website at https://www.gov.scot/publications/fish-health-inspectorate-service-charter/

Annex - The Aquaculture and Fisheries (Scotland) Act 2007

Section 4A of the Aquaculture and Fisheries (Scotland) Act 2007, as amended, introduces the requirement for a person carrying out the business of fish farming within a farm management area⁽¹⁾ to:

- (a) be party to a farm management agreement, or prepare and maintain a farm management statement, in relation to the fish farm, and
- (b) ensure that the fish farm is managed and operated in accordance with the agreement or statement.

To ensure compliance with the Aquaculture and Fisheries (Scotland) Act 2007, as amended, the following points must be addressed in the farm management agreement/statement

 The statement or agreement must identify the date of review (farm management agreements or statements must be reviewed at least every two years).

R25

⁽¹⁾ Farm management area means an area specified as such in the Code of Good Practice for Scottish Finfish Aquaculture
