FHI 059, Version 13	ls	sued by: FHI	Date of issue: 12/05/2020
Case No: 2021-0260			Date of visit: 21/07/2021
Time spent on site: 3	Hrs	Main Inspe	ctor:
Site No: FS1279 Business No: FB0095	Site Name: Business Name:	Bastaness Cooke Aquaculture Scotland	d Ltd
Case Types: 1 ECI	2 CNI 3 SLI	4 VMD 5	6
Water Temp (°C): 11.6	Thermometer No:	T146	FHI 045 completed
Observations:	Region: SH	Water type: S	CoGP MA: S-3
Dead/weak/abnormally behaving Clinical signs of disease observe Gross pathology observed? Diagnostic samples taken?	· ·	N If yes, see additional int	formation/clinical score sheet. formation/clinical score sheet. formation/clinical score sheet.
UNI/REG only - if unable to carry	out intended visit detail r	reason below:	

Additional Case Information:

5 dead observed across site, not fresh dead. Mortalities are removed using an ROV, which was reported to be very effective at the task. Nets are washed every two weeks, by net wash boat.

2 fish sampled for VMD appeared in very good condition and no sea lice observed, very few treatments reported to have been required this cycle, last treatment in May was FW followed by Salmosan, this was reported to have given a very good clearance.

Site has quite a strong tide, fish will be transferred from Ness of Copister at the end of the year for ongrowing. No issues reported on site.

Good visibility at time of inspection and fish observed shoaling well and appeared in very good condition and of uniform size. Remote paperwork conducted 15/07/21, site inspection conducted 21/07/21

DATE OF VISIT21/07/2021SITE NAMEBastanessINSPECTORInspector

Inspection under the Aquatic Animal Health (Scotland) Regulations 2009

The above site was inspected in accordance with the Aquatic Animal Health (Scotland) Regulations 2009.

All epidemiological units were inspected. On this occasion no samples were taken for disease analysis. The Inspector did not observe any clinical signs associated with the listed diseases as described in the Aquatic Animal Health (Scotland) Regulations 2009.

Records

The surveillance frequency category of the site was assessed as low. An inspection under the Aquatic Animal Health (Scotland) Regulations 2009 will be conducted every third year. The category of the site will be reassessed on a routine basis and updated as required.

The information required for the public record of aquaculture production businesses regarding this site was verified and where necessary updated. The following records were also inspected to ensure that the conditions of authorisation for your Aquaculture Production Business (APB) are being met:

Aquaculture animal and aquaculture animal product movement records were inspected and appeared to be adequately maintained.

Mortality records were inspected and found to be adequately maintained.

Mortality levels had exceeded the reporting criteria since the last inspection and had been reported to the Fish Health Inspectorate as required.

Reports detailing the results of animal health surveillance carried out by or on behalf of the business and/or Marine Scotland were available for inspection.

The biosecurity measures plan for the site was inspected and found to be adequately maintained and implemented.

Inspection under the Animals and Animal Products (Examination for Residues and Maximum Residue Limits) (England and Scotland) Regulations 2015

Medicine records were inspected and found to be adequately maintained.

Samples were taken to be analysed for veterinary residues.

Inspection under the Aquaculture and Fisheries (Scotland) Act 2007

The site was also inspected in accordance with the Aquaculture and Fisheries (Scotland) Act 2007, as amended, with respect to section 3 regarding parasites (sea lice), section 4A regarding fish farm management agreements and statements and section 5 regarding containment and escapes.

On this occasion the site was found to be satisfactory with regards to parasites, fish farm management agreements and statements and containment and escapes.

Please contact myself or the duty inspector should you require any further information or have any queries regarding this report.

Signed:

Date: 24/03/22

Fish Health Inspector

The Fish Health Inspectorate Service Charter detailing standards of service is available on the Marine Scotland website at <u>https://www.gov.scot/publications/fish-health-inspectorate-service-charter/</u>
