FHI 059, Version 13		Issued by: FHI	Date of issue: 12/05/2020						
Case No: 2021-0269			Date of visit: 20/07/2021						
Time spent on site:	Hrs	Main Insp	ector:						
Site No: FS0489 Business No: FB0440	Site Name: Business Name:	Cole Deep Grieg Seafood Shetland Lt	td						
Case Types: 1 ECI 2	CNI 3 SLI	4 VMD 5	6						
Water Temp (°C): 13.1	Thermometer No:	T146	FHI 045 completed						
Observations:	Region: SH	Water type: S	CoGP MA: S-8b						
Dead/weak/abnormally behaving fish present? Clinical signs of disease observed? Gross pathology observed? Diagnostic samples taken? If yes, see additional information/clinical score sheet. N If yes, see additional information/clinical score sheet. N N									
UNI/REG only - if unable to carry out intended visit detail reason below:									

Additional Case Information:

1 dead observed near middle of cage 9, not fresh dead. No issues reported on site, sea lice numbers very low. There had been an increase of caligus at neighbouring sites, but numbers still low at Cole Deep.

1 fish sampled for VMD appeared healthy, with very few lice observed, no adult female Leps.

Very calm weather and good visibility. Fish were deeper in the water column, but cages being fed showed a good feed response. All feeding at GSS sites is now conducted remotely from a central 'control' room at the main office in Lerwick. All harvests for site are planned to be dead haul.

FISH HEALTH INSPECTORATE VISIT REPORT

SUMMARY FOR INFORMATION OF SITE OPERATOR

 Business No
 FB0125
 Date of Visit
 20/07/2021

 Site No
 FS0489
 Site Name
 Cole Deep

 Case No
 20210269
 Inspector

Inspection under the Aquatic Animal Health (Scotland) Regulations 2009

The above site was inspected, in accordance with the Aquatic Animal Health (Scotland) Regulations 2009.

All epidemiological units were inspected. On this occasion no samples were taken for disease analysis. The Inspector did not observe any clinical signs associated with the listed diseases as described in the Aquatic Animal Health (Scotland) Regulations 2009.

Records

The surveillance frequency category of the site was assessed as low. An inspection under the Aquatic Animal Health (Scotland) Regulations 2009 will be conducted every third year. The category of the site will be reassessed on a routine basis and updated as required.

The information required for the public record of aquaculture production businesses regarding this site was verified and where necessary updated. The following records were also inspected to ensure that the conditions of authorisation for your Aquaculture Production Business (APB) are being met:

Aquaculture animal and aquaculture animal product movement records were inspected and appeared to be adequately maintained.

Mortality records were inspected and found to be adequately maintained.

Mortality levels had exceeded the reporting criteria since the last inspection and had been reported to the Fish Health Inspectorate as required.

Reports detailing the results of animal health surveillance carried out by or on behalf of the business and/or Marine Scotland were available for inspection.

The biosecurity measures plan for the site was inspected and found to be adequately maintained and implemented.

Inspection under the Animals and Animal Products (Examination for Residues and Maximum Residue Limits) (England and Scotland) Regulations 2015

Medicine records were inspected and found to be adequately maintained.

Samples were taken to be analysed for veterinary residues.

Inspection under the Aquaculture and Fisheries (Scotland) Act 2007

The site was also inspected in accordance with the Aquaculture and Fisheries (Scotland) Act 2007, as amended, with respect to section 3 regarding parasites (sea lice), section 4A regarding fish farm management agreements and statements and section 5 regarding containment and escapes.

On this occasion the site was found to be satisfactory with regards to parasites, fish farm management agreements and statements and containment and escapes.

Please contact myself or the duty inspector should you require any assistance or clarification in implementing any requirement or recommendation detailed in this report.

Signed: Date: 04/07/22

Fish Health Inspector

The Fish Health Inspectorate Service Charter detailing standards of service is available on the Marine Scotland website at https://www.gov.scot/publications/fish-health-inspectorate-service-charter/
