**Additional Case Information:**

Site disposes morts at whiteshore cockles.

4 pens are being transferred to West Loch Tarbert in the next couple of weeks. Reason is due to previous problems with disease at West Loch Tarbert. Smolts failed often there due to temperature fluctuations. Growing them to a specific size at Groatay and then transferring to West Loch Tarbert.

Cleanerfish are planned to come on site in first week of November after pens have been thinned down (6%-10% lumpfish)

Stock on site is from Loch Arkaig and Glenfinnan.
