FHI 059, Version 13		Issued by: FHI	Date of issue: 12/05/2020
Case No: 2022-0115			Date of visit: 26/04/2022
Time spent on site:	nrs	Main	Inspector:
Site No: FS1280 Business No: FB0398	Site Name: Business Name:	Loch Carnan Loch Duart Ltd	
Case Types: 1 ECI 2	2 CNI 3 SLI	4 VMD 5	6
Water Temp (°C): 8.5	Thermometer No:	T152	FHI 045 completed
Observations:	Region: WI	Water type: S	CoGP MA: W-17
Dead/weak/abnormally behaving	fish present?	N If yes, see addition	onal information/clinical score sheet.
Clinical signs of disease observed	!?		onal information/clinical score sheet.
Gross pathology observed?		N If yes, see addition	onal information/clinical score sheet.
Diagnostic samples taken?		N	
UNI/REG only - if unable to carry	out intended visit deta	il reason below:	

Additional Case Information:

Wildcaught wrasse caught around Uist and Skye stocked at 2%. Mortality since input in September/October 2021 <1%.

Sealice levels have been low since input. Paramove treatments completed in December 2021, January and February 2022. Crop last cycle was harvested early due to persistant high sea lice burdens following consecutive treatments that failed to signflicantly reduce the loads.

Gill scores have been low to moderate and fish are reported to be performing well.

Deadhaul harvests will be done for the site.

Fish were sitting deep in the water but appared to be in good condition and were responsive to feed.

Fish sampled for VMD appeared healthy externally and internally.

FISH HEALTH INSPECTORATE VISIT REPORT

SUMMARY FOR INFORMATION OF SITE OPERATOR

Business NoFB0398Date of Visit26/04/2022Site NoFS1280Site NameLoch CarnanCase No20220115Inspector

Inspection under the Aquatic Animal Health (Scotland) Regulations 2009

The above site was inspected, in accordance with the Aquatic Animal Health (Scotland) Regulations 2009.

All epidemiological units were inspected. On this occasion no samples were taken for disease analysis. The Inspector did not observe any clinical signs associated with the listed diseases as described in the Aquatic Animal Health (Scotland) Regulations 2009.

Records

The surveillance frequency category of the site was assessed as low. An inspection under the Aquatic Animal Health (Scotland) Regulations 2009 will be conducted every third year. The category of the site will be reassessed on a routine basis and updated as required.

The information required for the public record of aquaculture production businesses regarding this site was verified and where necessary updated. The following records were also inspected to ensure that the conditions of authorisation for your Aquaculture Production Business (APB) are being met:

Aquaculture animal and aquaculture animal product movement records were inspected and appeared to be adequately maintained.

Records in relation to aquaculture animals transported by the business were inspected and found to be adequately maintained.

Mortality records were inspected and found to be adequately maintained.

Mortality levels had exceeded the reporting criteria since the last inspection and had been reported to the Fish Health Inspectorate as required.

Reports detailing the results of animal health surveillance carried out by or on behalf of the business and/or Marine Scotland were available for inspection.

The biosecurity measures plan for the site was inspected and found to be adequately maintained and implemented.

Inspection under the Animals and Animal Products (Examination for Residues and Maximum Residue Limits) (England and Scotland) Regulations 2015

Medicine records were inspected and found to be adequately maintained.

Samples were taken to be analysed for veterinary residues.

Inspection under the Aquaculture and Fisheries (Scotland) Act 2007

The site was also inspected in accordance with the Aquaculture and Fisheries (Scotland) Act 2007, as amended, with respect to section 3 regarding parasites (sea lice), section 4A regarding fish farm management agreements and statements and section 5 regarding containment and escapes.

On this occasion the site was found to be satisfactory with regards to parasites, fish farm management agreements and statements and containment and escapes.

Please contact myself or the duty inspector should you require any further information or have any queries regarding this report.

Signed:

Fish Health Inspector

The Fish Health Inspectorate Service Charter detailing standards of service is available on the Marine Scotland website at https://www.gov.scot/publications/fish-health-inspectorate-service-charter/
