FISH HEALTH INSPECTORATE VISIT REPORT

SUMMARY FOR INFORMATION OF SITE OPERATOR

Business No FB0169 Date of Visit 06/12/2022

SITE NO FS0500 SITE NAME Applecross Smolt Unit

CASE NO 20220220 INSPECTOR

Inspection under the Animals and Animal Products (Examination for Residues and Maximum Residue Limits) (England and Scotland) Regulations 2015

The above site was visited in accordance with the Animals and Animal Products (Examination for Residues and Maximum Residue Limits) (England and Scotland) Regulations 2015.

Samples were taken to be analysed for veterinary residues.

The Inspector did not observe any clinical signs associated with the listed diseases as described in the Aquatic Animal Health (Scotland) Regulations 2009.

Records

The information required for the public record of aquaculture production businesses regarding this site was verified and where necessary updated.

Medicine records were inspected and found to be inadequately maintained. The majority of records were correctly maintained however the last three treatments had not been transferred to the online system where withdrawal periods are recorded.

Aquaculture animal and aquaculture animal product movement records were inspected and appeared to be adequately maintained.

Mortality records were inspected and found to be adequately maintained.

The following points were raised with the site representative during the inspection:

Details regarding withdrawal periods for recent treatments not recorded in medicine records. This was raised with the site representative during the inspection and has since been resolved. No further action required.

Please contact myself or the duty inspector should you require any further information or have any queries regarding this report.

Date: 08/12/2022

Signed:

Fish Health Inspector

R20
