Additional Case Information:

One dead wrasse observed during inspection. One dead (not fresh dead) and one lethargic salmon observed across site. Visibility during inspection was very variably due to winds gusting to force 7 or greater, due to deteriorating weather, last two cages were inspected from the boat. No issues observed or reported on site

Site is due to fallow mid May 2023 and restock with growers from Loch Erisort sites in mid June 2023, these will be harvested out by November 2023 to allow site to fallow before restocking in 2024. Next smolt input 2024 Q1 (planned for Feb 2024)

Due to weather conditions experienced on site, Scalpay is treated as a high energy offshore site, with site staff receiving a higher level of boat training.

Split of fish moved to Rum and further movements to Rum are planned for near future.
