#### Additional Case Information:

Paramove (Hydrogen Peroxide) treatments 10th, 14th and 15th May 2023. Deltamethrin treatment 23rd and 24th April 2023 to bring caligus numbers down.

Health report from 24/04/2023. No significant findings - slight PGD (only a few fish)

Above mortality threshold 2021 Wks 30,31 and 32 - 4.18%, 5.05% and 3.51%. Wk 38 - 1.2% all due to jellyfish. 2022 Wks 36, 37, 38 and 39 - 1.66%, 2.94%, 3.57% and 1.2% all due to jellyfish

Last 4 weeks Cleanerfish mortality - LUM: Wk 16 - 1.98% (1088), Wk 17 - 1.73% (930), Wk 18 - 1.01% (536) and Wk 19 - 1.08% (566)

Large increased in lumpfish mortality in 2022 weeks 31, 32 and 33 - 7.62%, 12.32% and 9.27% due to handling for lice treatments (freshwater) and tenacibaculum.

Increased mortality in wrasse in 2022 weeks 31, 32 and 33 - 5.27%, 7.32% and 11.97% due to handling for lice treatments (freshwater)

During the inspection of the site a small handful of lethargic looking fish were observed however all swam off quickly when approached. All other fish on site were swimming deep and had a good feed response therefore no diagnostic was carried out. When VMD fish were sampled all appeared healthy externally and internally.

Paperwork, site inspection and VMD samples completed by the same inspector competency audit conducted by the same inspector competency

| Treatments and Medicines Records   |   |
|--|---|
| 1. Recent treatments (see comment)?  | Y |
| H2O2,  |   |
| If yes, detail: T.M.S.   |   |
| If other, detail:  |   |
| 2. Medicines records available for inspection?   | Y |
| 3. Are records complete and correctly entered?   | Y |
| 4. Are fish in a withdrawal period?  | Y |
| 5. If yes, what treatment(s)? T.M.S.   |   |
| If other, detail: Deltamethri  |   |
| 6. Are medicines stored appropriately?   | Y |
|  |   |
| Biosecurity Records  |   |
| 1. Biosecurity records available for inspection?   | Y |
| 2. Has the manner and frequency of mortality removal, recording and safe disposal been considered?                   | Y |
| 3. Has the manner and period in which the APB will notify Scottish Ministers or veterinary professional of any       |   |
| increased (unexplained) mortality at the site been included?   | Y |
| 4. Has the action that will be taken in the event that the presence or suspicion of the presence of a listed disease |   |
| is detected been included and how and when that will be notified to Scottish Ministers?                              | Y |
| 5. Has the health status of aquaculture animals being stocked on the farm site been covered (equal or higher         | Y |
| health status, certification if required)?   |   |
|  |   |
| 6. Have the husbandry and biosecurity measures implemented between each epidemiological unit to minimise             | Y |
| transmission of disease been covered (movement of staff, visitors, equipment, live or dead fish etc.)?               |   |
| 7. Is documentation available regarding the measures in place to maintain the physical containment of                | Y |
| aquaculture animals held on site?  |   |
| 8. Have the biosecurity procedures been adequately implemented on site?  | Y |
| If no, detail:   |   |
|  |   |
| Results of Surveillance  |   |
| 1. Has any animal health surveillance been carried out by, or on behalf of, the business?                            | Y |
| 2. If yes, are results available for inspection?   | Y |
| 3. Any significant results?  | N |
| If yes, detail (if not detailed under recent disease problems).  |   |

# FISH HEALTH INSPECTORATE VISIT REPORT

# SUMMARY FOR INFORMATION OF SITE OPERATOR

 BUSINESS NO
 FB0119

 SITE NO
 FS0247

 CASE NO
 20230180

DATE OF VISIT17/05/2023SITE NAMELoch HarportINSPECTORInspector

## Inspection under the Aquatic Animal Health (Scotland) Regulations 2009

The above site was inspected, in accordance with the Aquatic Animal Health (Scotland) Regulations 2009.

All epidemiological units were inspected. On this occasion no samples were taken for disease analysis. The Inspector did not observe any clinical signs associated with the listed diseases as described in the Aquatic Animal Health (Scotland) Regulations 2009.

### Records

The surveillance frequency category of the site was assessed as medium. An inspection under the Aquatic Animal Health (Scotland) Regulations 2009 will be conducted every second year. The category of the site will be reassessed on a routine basis and updated as required.

The information required for the public record of aquaculture production businesses regarding this site was verified and where necessary updated. The following records were also inspected to ensure that the conditions of authorisation for your Aquaculture Production Business (APB) are being met:

Aquaculture animal and aquaculture animal product movement records were inspected and appeared to be adequately maintained.

Records in relation to aquaculture animals transported by the business were inspected and found to be adequately maintained.

Mortality records were inspected and found to be adequately maintained.

Mortality levels had exceeded the reporting criteria since the last inspection and had been reported to the Fish Health Inspectorate as required.

Reports detailing the results of animal health surveillance carried out by or on behalf of the business and/or Marine Scotland were available for inspection.

The biosecurity measures plan for the site was inspected and found to be adequately maintained and implemented.

# Inspection under the Animals and Animal Products (Examination for Residues and Maximum Residue Limits) (England and Scotland) Regulations 2015

Medicine records were inspected and found to be adequately maintained.

Samples were taken to be analysed for veterinary residues.

### Inspection under the Aquaculture and Fisheries (Scotland) Act 2007

The site was also inspected in accordance with the Aquaculture and Fisheries (Scotland) Act 2007, as amended, with respect to section 3 regarding parasites (sea lice), section 4A regarding fish farm management agreements and statements and section 5 regarding containment and escapes.

On this occasion the site was found to be satisfactory with regards to parasites, fish farm management agreements and statements and containment and escapes.

Please contact myself or the duty inspector should you require any further information or have any queries regarding this report.

Signed:

Date: 24/05/2023
