Additional Case Information:

Peaks in salmon mortality 2022: w/b 15/8/2022 4432 (1.37%), 22/8/2022 3149 (0.98%), 29/8/2022 6385 (2.02%), 5/9/2022 (6772 (2.18%), 12/9/2022 3462 (1.33%), 19/9/2022 6198 (2.42%), 26/9/2022 4876 (1.95%), 3/10/2022 7573 (3.09%), all gill health related with some handling/treatment related mortality. 31/10/2022 2659 (1.16%) Furunculosis had been identified with gill health the underlying cause.

Site was restocked with 2023 Q3, some post transfer mortalities recorded for the Q3 input but no other issues with mortalities low

Peaks in wrasse mortalities 2022: wk 16 229 (7.85%) environmental, wk 38 1952 (35.80%) wk 45 1938 (55.88%), wk 46 1129 (73.89) all classed as black losses.

Peaks in lumpsucker mortalities 2022: wk 13 944 (5.06%) environmental, wk 32 1014 (8.08%) environmental, wk 38 10975 (97.36%) black losses.

No cleaner fish mortality issues noted for 2023/2024.

No cleaner fish to be used this cycle.

Trialling Synacaine anaesthetic

~10 fish observed with physical damage, strong startle response so not removed.

FISH HEALTH INSPECTORATE VISIT REPORT

SUMMARY FOR INFORMATION OF SITE OPERATOR

Business No FB0169 Date of Visit 07/02/2024

SITE No FS0091 SITE NAME Meall Mhor Loch Fyne

Case No 20240014 Inspector

Inspection under the Aquatic Animal Health (Scotland) Regulations 2009

The above site was inspected, in accordance with the Aquatic Animal Health (Scotland) Regulations 2009.

All epidemiological units were inspected. On this occasion no samples were taken for disease analysis. The Inspector did not observe any clinical signs associated with the listed diseases as described in the Aquatic Animal Health (Scotland) Regulations 2009.

Records

The surveillance frequency category of the site was assessed as medium. An inspection under the Aquatic Animal Health (Scotland) Regulations 2009 will be conducted every second year. The category of the site will be reassessed on a routine basis and updated as required.

The information required for the public record of aquaculture production businesses regarding this site was verified and where necessary updated. The following records were also inspected to ensure that the conditions of authorisation for your Aquaculture Production Business (APB) are being met:

Aquaculture animal and aquaculture animal product movement records were inspected and found to be inadequately maintained.

Mortality records were inspected and found to be adequately maintained.

Mortality levels had exceeded the reporting criteria since the last inspection and had been reported to the Fish Health Inspectorate as required.

Reports detailing the results of animal health surveillance carried out by or on behalf of the business and/or Marine Directorate were available for inspection.

The biosecurity measures plan for the site was inspected and found to be adequately maintained and implemented.

The following points were raised with the site representative during the inspection:

 It was noted that live cleaner fish movements records were not recorded as required by condition 5 and Appendix 2 of the APB's Authorisation. This was discussed with the site manager and records were updated, no further action is required.

Inspection under the Animals and Animal Products (Examination for Residues and Maximum Residue Limits) (England and Scotland) Regulations 2015

Medicine records were inspected and found to be adequately maintained.

Samples were taken to be analysed for veterinary residues.

Inspection under the Aquaculture and Fisheries (Scotland) Act 2007

The site was also inspected in accordance with the Aquaculture and Fisheries (Scotland) Act 2007, as amended, with respect to section 3 regarding parasites (sea lice), section 4A regarding fish farm management agreements and statements and section 5 regarding containment and escapes.

On this occasion the site was found to be satisfactory with regards to parasites, fish farm management agreements and statements and containment and escapes.

Please contact myself or the duty inspector should you require any further information or have any queries regarding this report.

Signed:

Fish Health Inspector

The Fish Health Inspectorate Service Charter detailing standards of service is available on the Scottish Government website at Fish Health Inspectorate Service Charter - gov.scot (www.gov.scot)
