UNI/REG only - if unable to car	ry out intended visit deta	il reason below:	

Additional Case Information:

No issues observed on site at time of inspection. Site reported some background HSS, this was expected to reduce after grading when fish will be split over tanks and held at lower biomass.

Highland Aqua on site at time of inspection conducting vaccination. Production fish were being vaccinated with Alpha Ject Micro 6, whilst those that will be used for broodstock were being vaccinated with Micro 6 and Clynav. Vaccination is due to be completed by 2nd week of December. Site has also purchased there own vaccination machine.

Water was very peaty at time of inspection reducing visibility in tanks. No dead or moribund observed at time of inspection. Site has reported that there have been fewer issues with fungus this year, temperatures were reported to be slightly lower this year compared to the last few years.

Site is currently conducting works to increase capacity on site by installing a further 28 tanks which will be 8m tanks, these are planned to be in place by May/June 25.

Fish sampled for VMD were in very good condition.

FISH HEALTH INSPECTORATE VISIT REPORT

SUMMARY FOR INFORMATION OF SITE OPERATOR

Business No FB0061 Date of Visit 05/11/2024

SITE NO FS0575 SITE NAME Ormsary Smolt Unit

CASE NO 20240036 INSPECTOR

Inspection under the Animals and Animal Products (Examination for Residues and Maximum Residue Limits) (England and Scotland) Regulations 2015

The above site was visited in accordance with the Animals and Animal Products (Examination for Residues and Maximum Residue Limits) (England and Scotland) Regulations 2015.

Samples were taken to be analysed for veterinary residues.

The Inspector did not observe any clinical signs associated with the listed diseases as described in the Aquatic Animal Health (Scotland) Regulations 2009.

Records

The information required for the public record of aquaculture production businesses regarding this site was verified and where necessary updated.

Medicine records were inspected and found to be adequately maintained.

Aquaculture animal and aquaculture animal product movement records were inspected and appeared to be adequately maintained.

Mortality records were inspected and found to be adequately maintained.

Please contact myself or the duty inspector should you require any further information or have any queries regarding this report.

Signed: Date: 20/11/24

Fish Health Inspector

The Fish Health Inspectorate Service Charter detailing standards of service is available on the Scottish Government website at Fish Health Inspectorate Service Charter - gov.scot (www.gov.scot)
